EXPERIENCE

Jetweels [TypeScript, Nextjs, Reactjs]   (Remote) New York, United States

Frontend Engineer – Full time   *April 2023 – Jully 2024*

- Worked on the frontend of the company's website, built new features, and improved the user experience.
- Implemented a new design system for the website, improved the performance, and optimized the codebase.

- Communicated with the designer to implement new designs and features, and worked with the Technical Consultant to integrate new APIs.

- Join meetings with the team to discuss new features, improvements, and bugs, and worked with the QA team to fix bugs and improve the quality of the website.

CMC Global [Typescript, Nextjs, Reactjs,React native]   (Onsite) Hanoi, CMC Global

Software Engineer – Full time   *September 2022 – April 2023*

- Worked on a dashboard application based on a SaaS product that helps Slack communities without leaving slack
- Worked on creating sitemaps for the product, auth and password recovery feature, and frontend UI improvements.

- Implemented security measures of LogRocket and introduced events module feature for hosting community events.

Amela [ReactJS, NodeJS, AWS, React Native]   (Onsite) Hanoi, Vietnam

Software Engineer   *February 2019 – September 2022*

- Started my career as an intern, worked on the frontend and backend of the company's website and internal tools. Then move to many other positions.
- Join the team to build a new product, a web-based application for managing and tracking employee performance.
- Improve my skills in JavaScript, Reactjs, ExpressJS, SQL, and other technologies, and learn about the software development process.

PROJECTS

EDUCATION

Hanoi University of science and technology   Hanoi, Vietnam

                                                                              CGPA: 8.7/10
